

WELCOME TO THE SEMINAR

The review seminar will begin as soon as everyone is registered and has their materials. As a courtesy to other participants, we ask that you refrain from cell phone conversations and text messaging during the seminar.

BREAKS, LUNCH, & DISMISSAL:

It is our policy to begin and end each day on time. We appreciate how important this program is to you and work very hard to make every minute count. Regular breaks will be taken throughout the day. We encourage you to get up from your seat and break for about 10 minutes. Please return to your seat promptly so the program can continue on schedule and dismiss on time. Lunch break is for one hour starting around noon each day.

QUESTIONS:

In order to allow the instructor to cover important material, please hold your questions until the end of each lecture. We will be sure to allow ample opportunity for you to ask questions. If you have several questions, please see the instructor during one of the breaks. We will help in any way possible.

PRACTICE EXAM(S):

A License Key for Practice Exam(s) will be emailed to you after the seminar is completed.

TUTORING SUPPORT:

Our goal is to have an instructor available two days per week to assist you. The days are subject to instructor availability. Once your license key is activated, you will be able to use your online account to schedule a one-on-one tutor call.

CE CREDITS:

The Radiography program is approved for 14.5 hours of category A credit through the ASRT®. A certificate will be emailed to each attendee after completion of the course - usually within 7 days.

Additional materials and pricing can be found on other side.

DISCLAIMER: All materials published or provided by Kettering National Seminars are in compliance with the standard of ethics set forth by the governing testing authority. Kettering National Seminars does not receive or disclose examination information which would subvert or attempt to subvert the examination process. The use of words or statements such as, but not limited to, "exam", "registry", "test", "commonly seen", or "always appears" does not purport to, and cannot be understood to be disclosing "inside information" concerning an examination. The content of the materials is based upon the content outlines, specifications, summaries, or matrices published by the testing authority.

NOTICE: Pursuant to the United States Copyright Act of 1976, authorized by the United States Constitution, Article I, Section 8, the unauthorized reproduction of Kettering National Seminars' intellectual property is a violation of 17U.S.C.501(a) and subject to legal action under 17U.S.C.502-505. "Unauthorized reproduction" includes, but is not limited to, copying printed material, duplication of digital files, and recording lectures.
